DURATECH
— innovative pool products —

- CATALOGUE 2023 -

Welcome to House of DURATECH! The product brochure you are holding is far more than just a handy overview of all the innovative swimming pool accessories we offer. It is the key to a practical and long-lasting swimming pool installation that makes dreams come true.

Since 2002, House of DURATECH has been developing and producing **innovative swimming pool accessories** such as sustainable LED lighting, heat pumps, filter pumps, control and cover systems. All our products comply with the most stringent technical standards, but they are also innovative in terms of their **simple installation and ease of use**. These innovations are driven by the personal experiences of our CEO, Marc Lamberts, who is the son of a swimming pool constructor himself and helped his father with the installation and finishing of swimming pools from an early age. Now he uses his skills as an engineer to develop innovations that improve swimming pool installations.

“As the son of a swimming pool constructor, I helped install swimming pools myself when I was younger, so I really understand what swimming pool installers need. That is why DURATECH only develops innovative products that make installation faster, longer-lasting, cheaper and more efficient.”

Marc Lamberts, CEO House of DURATECH

Our passion for research and development forms the basis of our business. There is no point imitating existing products, so every product in the DURATECH range offers a certain innovation or improvement:

Easier installation

Less maintenance

Longer lifespan

Lower energy consumption

Our latest new developments are focused on an all-round, complementary range of products that are interconnected by clever software. Sustainability and energy efficiency are key. Our products make pools easier to install, reduce maintenance and last longer, which gives swimming pool owners an attractive long-term benefit. That puts the dream of years of carefree swimming bliss and an everlasting holiday feeling within everyone's reach.

“Our innovative product range makes the dream of a swimming pool accessible to everyone. That sense of spreading happiness gives our entire team the drive to guarantee the best service day after day.”

Ariëtte Heilbron, HR Manager House of DURATECH

We wish everyone a wonderful time in their swimming pool!

Ariëtte & Marc Lamberts | House of DURATECH

INDEX

PROPULSION SYSTEMS BV

The Belgian manufacturer of the brand House of DURATECH, has been developing and producing sustainable and ecological products for swimming pools for 20 years.

The House of DURATECH range consists of:

DURAVISION Pool Light products	13
DURAHEAT Heat Pump products	39
DURAFLOW Pool Flow products	59
DURACOVER Cover System products	69
DURALINK Control products	85

CAREFREE ENJOYMENT,
THE WISH OF EVERY POOL OWNER

MASTERING POOL CONNECTIONS

The expectations of a technical pool installation are ever-increasing, making it more complex. The installation, connection and commissioning take more valuable time from the specialist installer.

Day-to-day use is also becoming a challenge, more pool owners are finding it difficult to operate their pool installations correctly.

During the development of DURATECH products, much attention is paid to this. Easy installation, connection and management are key.

All technical devices are connected directly to the LINK Master, which is a great simplification in installation.

The connected devices are controlled in an intelligent way for the most efficient and safest operation of the swimming pool installation.

The swimming pool owner has 1 app, DURA Cloud, to control and monitor his swimming pool. The swimming pool installer can also monitor the installation remotely.

DuraLink™

CONNECTED PRODUCT RANGE

DuraLink™

CONNECTED PRODUCT RANGE

SIMPLE AND QUICK INSTALLATION

- Power supply and control through the same cable
- DURATECH devices are automatically recognised
- Configuration/calibration via the DURA Cloud app
- Control of multi-brand devices through 2 relay contacts

EFFICIENT, SAFE AND ENERGY-SAVING

- Intelligent control of connected devices
- Standard filter programs
- Creation of own scheduler(s) with operating times of filter pump, heat pump and lighting for optimum operation in every situation
- Power protection

USER-FRIENDLY

- 1 app for controlling the pool installation
- Different profiles with corresponding possibilities
- Remote monitoring of swimming pool installation

LEGEND

QuickConnect™

Unique connector between cable and lamp. Simple and reliable installation, regardless of the diameter of the DURAVISION lamp.

PressFit™

Simply push the DURAVISION lamp with connector into the wall conduit. Also accommodates tolerances, so that a seamless connection is always obtained to the pool wall.

NoAir™

Filled, air-free DURAVISION lamp. This unique production process guarantees leak- and condensation-free swimming pool lighting. At the same time, the internal light reflection is eliminated, resulting in more light output.

ClickOn™

DURAVISION lamps and VISION Face Plates have been developed in such a way that they simply click together.

Ultra Flat

Thanks to the very flat shape, the DURAVISION lamp cannot be used as a step, which prevents damage.

POOL LIGHT PRODUCTS

DURAVISION

DURAVISION, a wide range of LED underwater lighting for swimming pools.

By using quality parts in combination with new technologies, the boundaries of underwater lighting are constantly being pushed without compromising on quality. DURAVISION is robust, effective and energy efficient.

All DURAVISION products are coordinated with each other, always taking into account simplicity of installation and ease of use.

An extensive selection of finishing rings guarantees a unit in harmony with the pool.

DURAVISION offers a solution for every situation and budget.

ONE SOLUTION FOR MANY COMBINATIONS

**Finishing rings p. 28-30**

- In stainless steel and high-quality polymer
- Different models and colours
- Ultra Flat
- Easy assembly thanks to ClickOn™

LED lighting p. 16-22

- 3 diameters 50/100/170mm
- Up to 5500 lumen
- Both fixed and variable colours
- QuickConnect™ connector for simple and reliable installation
- PressFit™, easy installation of the lamp in wall conduit

Wall conduits p. 24-26

- A wall conduit for any type of pool
- Watertight connection in combination with flexible pipe
- Up to 1.5 meters of storage space for cable

CHARACTERISTICS

- 3 diameters 50/100/170mm
- Available in white and RGB
- RGB: 11 fixed colour programs, control via ON/OFF
- 12 VAC / 2 wire
- Polymer Housing
- Included in packaging:
 - Spectra DVM lamp
 - 2-wire cable, 2 meters
 - QuickConnect™ kit with Magic Nut
 - Retrofit kit PAR56 niche (170mm only)
- Always to be used in combination with toroidal transformer

ADVANTAGES

- Wide beam angle
- Waterproof thanks to NoAir™ housing
- PAR56 niche retrofit solution (170mm only)
- Compatible with salt electrolysis
- Quick and easy installation thanks to:
 - QuickConnect™
 - PressFit™
 - ClickOn™
- Personalize with VISION Face Plates

Values in graph refer to swimming pools with white or light-coloured walls that require 100-150 lm/m². Increase the light (lumen) by 50% for medium colours. Dark walls are difficult to illuminate and need up to 250% extra light.

Scan or click here for the online installation manuals.

DURAVISION
Pool Light products

CHARACTERISTICS

- For every type of pool
- Made of high-quality polymer
- A stainless steel 316L version for thin walled swimming pools
- Suitable for DURAVISION Spectra, Adagio Pro and Pro lamps
- Flexible hose version has internal cable gland
- Up to 1,5 meters of cable storage in the Wall Conduit

ADVANTAGES

- Silicone-free installation
- Version with internal cable seal is suitable for infinity pools
- Easy installation using the mounting toolset
- Thanks to cable storage, the lamp can be brought above water
- Any size of DURAVISION lamp fits any Wall Conduit

VISION Specials

DURAVISION
Pool Light products

RETROFIT PAR56-NICHE

- Standard with all DURAVISION lamps diameter 170mm
- Re-use of finishing ring

ADAPTER CLAMPS FOR MTS NICHE

PZS170-MTS

- In combination with:
 - VISION Spectra DVM diameter 170mm
 - VISION Spectra DVS diameter 170mm
 - VISION Adagio Pro diameter 170mm
 - VISION Pro diameter 170mm
 - VISION Moonlight diameter 170mm
- Re-use of finishing ring

ADAPTER PLATE FOR AQUA DELIGHT NICHE

PZA-KAD

- In combination with:
 - VISION Spectra DVM diameter 100 en 170mm
 - VISION Spectra DVS diameter 100 en 170mm
 - VISION Adagio Pro diameter 100 en 170mm
 - VISION Pro diameter 100 en 170mm
- VISION Face Plate as a finishing ring

WALL MOUNTING

PZA100-RY-WH

- Wall-mount kit and finishing ring included
- In combination with:
 - VISION Spectra DVM diameter 100mm
 - VISION Spectra DVS diameter 100mm
 - VISION Adagio Pro diameter 100mm
 - VISION Pro diameter 100mm

LEGENDE

FullFlow™

Maximum water flow through your heat pump, making the use of bypass unnecessary to regulate the water flow control.

NoFrost™

Prevents frost damage, if forgotten to drain water, from the heat pump during the winter.

HotDefrost™

Revolutionary defrosting technology that does not use the pool water for this purpose, preventing it from cooling.

CondensFlux™

Smart design that gathers condensation water in one place and drains it through a pipe.

HEAT PUMP PRODUCTS

DURAHEAT

Extend the swimming season thanks to energy-efficient DURATECH heat pumps.

The choice of your DURAHEAT heat pump is determined by the surface area of the pool and the volume of water to be heated. Factors such as climate, length of swimming season, sunny location, exposure to wind and type of cover also play a major role.

When installing, always allow sufficient space for proper air extraction. Depending on the situation, a horizontal or vertical air blow-out can be chosen.

Golden tip:

Make sure your pool is properly covered when you are not swimming, to avoid heat loss through evaporation of the water.

THE IDEAL HEAT PUMP FOR YOUR POOL

Hot Splash & Sun Spring

Plug & Play heat pumps for above-ground swimming pools, easy and safe to install by the end user himself.

**Dura V & Dura Vi**

Vertical air blow-out for installation in limited surface.

**Dura+i**

A whisper-silent heat pump with sideways air blow-out.

**Dura Pro**

The perfect all-season heat pump, highly efficient operation even at low temperatures.

HEAT Hot Splash

DURAHEAT
Heat pump products

CHARACTERISTICS

- Suitable for pools up to 12m³
- From 10°C ambient temperature
- Horizontal air blow-out
- Titanium heat exchanger
- Polymer housing
- NoFrost™
- User-friendly display
- Integrated electrical RCD plug
- DN32 hose and clamp included
- Works in combination with small circulation pump

ADVANTAGES

- Energy-efficient
- Compact and lightweight
- Extends the swimming season
- Easy and safe installation by end-user
- Maintenance-friendly
- Designed to suit above-ground pool environment
- Corrosion-free and UV-resistant

HEAT Accessories

DURA^{HEAT}
Heat pump products

WIFI MODULE

WIFI DURAPRO

Wifi module for DURA+i and DURAPRO heat pumps.
App available for both Android and iOS devices.

DURALINK™ RF MODULE

DLD-20

DuraLink™ retrofit connection module for DURA+i and DURAPRO heat pumps.
This allows the heat pump to be controlled wirelessly by the LINK Touch remote control.

BOTTOM TRAY HEATER

ACCS-DURA-023

A heated base plate prevents ice build-up when operating during colder periods. For existing DURAPRO heat pumps.

Scan or click here for the online
installation manuals.

DURAFLOW **Pool flow** products

FLOW Inverter	62
----------------------	----

FLOW Cartridge Filter	64
------------------------------	----

POOL FLOW PRODUCTS

DURAFLOW

The DURAFLOW pump ensures water circulation in the pool and through the technical installation. Based on the flow rate, other devices such as filter, water treatment and heat pump can operate.

By controlling the DURAFLOW pump with the LINK Master, all devices will interact intelligently. Depending on the needs, the DURAFLOW pump will operate at different speeds.

This combination guarantees a smooth and energy-efficient operation of your pool system.

FOR EFFICIENT WATER CIRCULATION

Flow Inverter

DURAFLOW
Pool Flow products

CHARACTERISTICS

- Variable-speed pump
- Control via LINK Master
- PLC communication, control via power cable
- Self-priming
- Suitable for salt electrolysis up to 4%-4gr/l
- Water connection for pipe 50 and 63mm

ADVANTAGES

- Energy-efficient
- Ease of use & installation
- DURA Cloud app
- Large pre-filter
- Low-noise

COVER SYSTEM PRODUCTS

DURACOVER

DURACOVER, a unique pool cover system.

The DURACOVER cover system was developed to provide a solution to various challenges. A custom-made product available from stock and easy to transport.

Thanks to the telescopic tube, it can be adjusted on site to the size of the pool, during pool construction. Thanks to its light weight and unique ball joint, installation can be carried out by 1 person, saving valuable installation time.

The wall-mounting systems offers a solution for any type of pool, both new construction and renovation.

Control by the LINK Cover or LINK Master, part of the DuraLink™ connected product range. A easy and efficient operation of all functions offered by DURACOVER.

THE PERFECT POOL COVER IN 4 STEPS

1 Telescopic tube

COVER Tube
For pool width between 3,3 and 5,5 meters

2 Motor

COVER Motor
Tubular motor, for installation in COVER Tube

3 Mounting system

COVER Wall Duct
Universal mounting kit for various types of pools, both new and renovation
or
COVER Cable Duct
Renovation solution for concrete pools without liner
or
COVER Hanging System
Hanging system for all types of pools, both new and renovation

4 Control

LINK Cover
Control unit for DURACOVER
or
LINK Master
Management of entire swimming pool installation, including DURACOVER

COVER **Tube**

DURACOVER
Cover System products

CHARACTERISTICS

- Telescopic tube set
- Available in 2 versions
 - For pool width between 3,3 - 4,5m
 - For pool width between 4,3 - 5,5m
- Made of glass fibre reinforced vinyl ester
- Compact and lightweight
- Robust design

ADVANTAGES

- Easy to transport, maximum length 2,155m
- Available from stock
- Compatible with salt electrolysis
- Smooth and easy installation
 - ONE man installation
 - During pool construction

COVER Wall Duct

DURACOVER
Cover System products

CHARACTERISTICS

- 1 solution for different types of pools
 - Thin wall with/without liner
 - Concrete or stonework with/without liner
- For both new construction and renovation
- Advanced ball joint system
- Materials from high-quality polymer or stainless steel 316
- Installation material included

ADVANTAGES

- Waterproof installation, including cable gland
- Robust and durable
- Unique advantages thanks to ball joint system
 - Installation possible by 1 person
 - Extendable, easy access to motor
 - Accommodates tolerances
- 1 solution for different types of pools, easy stock management
- Compatible with salt electrolysis

CONTROL PRODUCTS

DURALINK

The functions of the DURATECH products are easily controlled by the range of DURALINK control units and their remote controls.

Depending on the installation, the chosen products and the customer's wishes, there are various options. From simple/safe operation of DURAVISION LED lighting to intelligent management of the entire pool installation.

External devices can also be connected and controlled via relay contacts.

Thanks to the LINK Touch or the DURA Cloud app, the DURATECH devices can be operated wirelessly.

A suitable solution for every installation.

CHOOSE YOUR MOST EFFICIENT CONNECTION

LED lighting

Power supply and control for DURAVISION LED lighting.
Simple ON/OFF or more advanced control via PLC communication.

LINK **Driver** p. 88
LINK **Controller** p. 92

**Pool cover**

Power supply and control for DURACOVER pool cover.
Operation and calibration via key switch.

LINK **Cover** p. 94

**LED lighting + heat pump + pool cover**

Control via 1 remote control of DURAVISION LED lighting, DURAHEAT heat pumps and pool cover.
When using DURACOVER pool cover, to be combined with LINK Cover control.

LINK **Touch** p. 90
LINK **Controller** p. 92

**Intelligent control**

Power supply and control of the entire technical pool installation.
Allows the various devices to work together intelligently. Configuration and operation are very easy thanks to the DURA Cloud app.

LINK **Touch** p. 90
LINK **Master** p. 96
DURA **Cloud** app p. 98

LINK Driver

DURALINK
Control products

CHARACTERISTICS

- ON/OFF communication, by quickly switching on/off the DURAVISION lamp will change colour this according to fixed colour programs
- Including TX868 remote control
- With/without built-in transformer
- 2 relay contacts, toggle or pulse mode

ADVANTAGES

- Easy installation
- Safe control for DURAVISION led lighting
- Control of external devices such as garden lighting or pool cover via relay contacts

DURALINK
Control products

CHARACTERISTICS

- ON/OFF communication, by quickly switching on/off the DURAVISION lamp will change colour according to fixed colour programs
- PLC communication, commands will be transmitted via the power cable to operate the DURAVISION lamp
- On-board dipswitch for settings
- Including TX868 remote control
- With/without built-in transformer
- 2 relay contacts toggle or pulse mode
- RS-485 and DMX512 connectivity
- LINK Touch compatible

ADVANTAGES

- Easy installation and configuration
- Safe control for DURAVISION LED lighting
- Dimming function via PLC communication
- Control of external devices such as garden lighting or swimming pool covers via relay contacts
- Free space on DIN-RAIL (with PLP-REM-350)
- CAN bus to connect LINK Controller or LINK Cover
- Connection to home automation system via RS-485
- SD card slot for firmware updates

LINK Master

DURALINK
Control products

CHARACTERISTICS

- Pre-wired electrical cabinet with built-in transformer
- Terminal blocks to connect the various devices
- Intelligent control of the technical pool installation
- Allows optimal cooperation between different devices
- Possible to connect multi-brand devices
- PLC communication, control via power cable
- 2 relay contacts, toggle or pulse mode
- RS-485 and DMX512 connectivity
- LINK Touch compatible
- RJ45 network connection for internet connection
- Direct Wifi functionality to create a local wireless network
- Power protection
 - Differential switch 30mA
 - Current measurement on all 12V and 24V outputs
 - Software protection for maximum currents

ADVANTAGES

- Makes complex pool installations easier to install and start up
- Simplified electrical wiring, saving valuable installation time
- Power supply and control of various pool devices
 - Filter pump
 - Heat pump
 - Lighting
 - Cover
 - Water treatment
 - Filling system
- Automatic pairing of all DURATECH products
- Remote access thanks to internet connection
- 1 DURA Cloud app to control the entire installation

¹ Requires correct installation with sealed cable duct at the bottom of the cabinet.

INTELLIGENT CONTROL

- Decreases speed or deactivates filter pump when opening/closing pool cover
- When pool cover is fully open, filter pump will operate at full speed for optimum filtration
- Cleaning mode: filter pump operates at full speed and water treatment is deactivated
- Deactivate water treatment when filter pump is not working
- Filter pump will not stop when heat pump is active
- When the heat pump has reached its desired temperature, the filter pump will run for another 5 minutes to bring residual heat to the pool
- Activation automatic filling system by level sensor, automatic filling will stop after 3 hours for safety reasons

DURA Cloud app

DURALINK
Control products

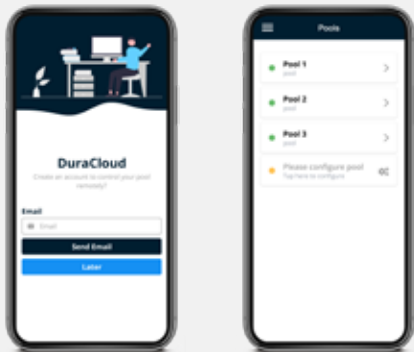

CONTROL MADE EASY

- Only one app for configuration, monitoring and operation of technical swimming pool installation
- Carefree enjoyment has never been easier
- App available for Android and iOS devices

EASY MANAGEMENT

- Management of multiple pools
- Local or remote connection
- Different user profiles with corresponding possibilities

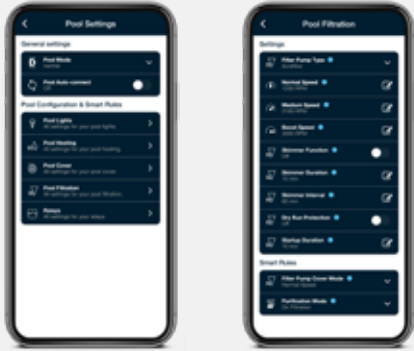

DASHBOARD FOR DAILY USE

- Control various devices such as lighting, temperature adjustment, cover, ...
- Detail page available for specific information or more control functions

CONFIGURATION AND SMART RULES

- Overview page of connected devices
- Detail page per device for configuration and smart rules so that the various devices can work optimally together

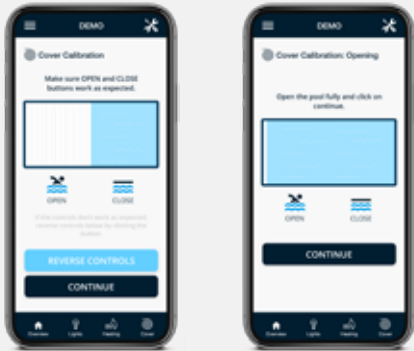

PLANNER

- Default programs for time-dependent control of filter pump
- Possibility of creating personalised schedulers for filter pump operating times/settings, heat pump and lighting

CALIBRATION DURACOVER

- Easy calibration of DURACOVER pool cover
- Adjusting motor rotation direction via app

DURACARE

DURACARE is our after-sales service that provides active support to professional distributors, pool builders and installers.
Our partners provide after-sales support to the end customers.

DURACARE employs its extensive database, which contains technical, general and product specific information.
Our R&D engineers are working closely together with the DURACARE after-sales service.

With just a few clicks on our website you can easily download all our (multilingual) product manuals.
Upon request, House of DURATECH organizes product-oriented training courses for
distributors and installers. You can contact the DURACARE team by e-mail and telephone.

The Plug & Play Heat pumps HEAT Hot Splash and HEAT Sun Spring have their own micro sites
where you will find specific product information, a handy contact sheet and the manual.
